

Graphic Shape and Value in Color Study

Values and shapes are what make up our reality. When looking at any object, we can make out the dimension as well as what the object is, depending on values we see and that shapes that they make. For this portrait, I carefully outlined the values that I saw to create a value and color study. The colors were carefully chosen based off of what was appealing to the eye.

Shadow	Midtone	Highlight
C: 100	C: 83	C: 2
M: 88	M: 85	M: 35
Y: 43	Y: 0	Y: 100
K: 48	K: 0	K: 0
